**KPEDZI Bernard Kokou**

# Software Engineer

Lomé, Togo kpedzibernard@gmail.com +228 92 86 60 99 github.com/BENKL404

*Passionate web application developer with proven experience building impactful, real-world projects. Strong foundation in clean architecture, CI/CD, and API security. Comfortable across the full stack, from API design to production deployment.*

## SKILLS & COMPETENCIES

| | |
|---|---|
| **Front-end** | React, TypeScript, Vue.js 3, Tailwind CSS, Flutter |
| **Back-end** | Node.js, Express, Spring Boot, REST API, JWT / OAuth2 |
| **Databases** | PostgreSQL, MongoDB, Redis, MySQL |
| **DevOps** | Docker, GitHub Actions, Nginx, Linux VPS, Git |
| **Tools** | VS Code, IntelliJ IDEA, Postman, Figma (basics), Jira / Trello, Cursor, Claude.ai, Google AI Pro, Google AI Studio |
| **Methods** | Agile / Scrum, Clean Architecture, Git Flow, automated CI/CD, TDD (basics) |
| **Expertise** | API Security OAuth2/JWT · Testing Jest/JUnit/Postman · Mobile Money Payments |

**Languages**
French: fluent
English: technical

**Soft Skills**
Autonomy · Teamwork · Communication
Problem Solving · Adaptability

## PROFESSIONAL EXPERIENCE

*Employment & Internships*

### Junior Application Developer — Aug 2026 – Present

*digi.job, Lomé, Togo*
PStudio / Xtraitement · BPMN · Application Integration · API

- Integrated and configured PStudio Xtraitement for business process modeling and automation (BPMN).
- Developed and integrated APIs to connect Xtraitement with existing systems and streamline data exchange.
- Contributed to testing, functional acceptance, and bug fixing on delivered workflows, working closely with business teams.

### Biometric Data Registration Operator — Apr 2025 – Apr 2026

*ANID (National Identification Agency), Lomé, Togo*
Biometric Data Collection · Data Entry · Operational Rigor · Citizen Services

- Registered and verified citizens' biometric data (fingerprints, photo, identity) in the national identification system.
- Welcomed and guided citizens throughout the registration process, in compliance with data privacy and security procedures.

### Full-Stack Developer (internship) — Jan – Apr 2025

*PayTicket (ticketing startup), Lomé, Togo*
Flutter · Spring Boot · Spring Security · JWT · Flooz / T-Money · QR Code

- Flutter ticketing mobile app: real-time ticket purchase, management, and validation.
- Secure Spring Boot REST API (JWT) with role management and mobile money integration.

### Software Developer (internship) — Jun – Nov 2024

*MEN (Ministry of National Education), DPSSE Division, Lomé, Togo*
JavaFX · Spring Boot · Hibernate · PostgreSQL · PDF · Excel

- JavaFX desktop application for school management: enrollment, grades, national statistics.
- MVC architecture, Hibernate ORM, automated PDF/Excel exports for regional education offices.

**Full-Stack Web Developer** Jan – May 2024
*TogoInnov Digital, Lomé, Togo*
Vue.js 3 · Node.js · Express · MySQL · Nginx · VPS Linux

- Platform connecting freelancers with Togolese businesses. VPS deployment (Nginx, SSL, PM2).

*Entrepreneurship & Freelance Work (concurrent)*

**Founder & Lead Developer** 2025 – Present
*LKFondation, Lomé, Togo*
Technical Infrastructure · Brand Strategy · Collaborative Development

- Built and manage the technical infrastructure and brand strategy of LKFondation, an organization dedicated to the collaborative development of software solutions.
- Key projects: LK Vault (local-first SSH / SFTP / VNC client with an encrypted vault and AI copilot), KoriTech / Proxima (HR management SaaS), UrgenceVie (mobile blood donation platform), and AlloArtisan (geolocated directory for local artisans).

**Full-Stack Developer** Mar – Aug 2025
*BuildStack Labs, Cotonou, Benin*
React · TypeScript · Node.js · PostgreSQL · Docker · GitHub Actions | Remote

- Built new SaaS features: dashboards, real-time notifications, and PDF exports.
- CI/CD pipeline via GitHub Actions (lint, Jest tests, VPS deployment): sped up delivery by 40%.
- Agile ceremonies (stand-ups, sprint planning, reviews) within a distributed West African team.

**Freelance Web Developer** 2023 – 2025
*Self-employed, Togolese SMEs & diaspora clients*
React · Vue.js · Node.js · Express · PostgreSQL · MySQL · VPS Linux

- Custom showcase websites and web applications for SMEs and local entrepreneurs.
- Linux VPS deployment, technical SEO, full client management from onboarding to delivery.

**Full-Stack Developer** Sep – Dec 2024
*Startup / Client, Abidjan, Côte d'Ivoire*
React · Node.js · PostgreSQL · Docker | Remote

- Internal tools and management interfaces for an Abidjan-based company, working remotely.

**Node.js Backend Developer** Jun – Nov 2024
*DataBridge Inc., Dakar, Senegal*
Node.js · Express · MongoDB · Redis · JWT · REST API | Remote

- High-availability REST API for multi-warehouse inventory management: > 800 requests/min.
- Redis caching: -60% database load on the most heavily used endpoints.
- JWT / refresh token security + rate limiting against abuse.

**Participant, CodeFusion Hackathon** 2024
*Open House Event, Lomé, Togo*
Teamwork · Rapid Prototyping · Pitching

- Designed an application prototype as part of a team, presented to a panel of judges.

**Instructor, Intro to Programming** 2024
*ESIBA Business School / association, Lomé, Togo*
Python · JavaScript · Teaching

- Beginner-level training sessions: hands-on exercises, best practices, and learner follow-up.

## EDUCATION & CERTIFICATIONS

**Bachelor's Degree in Software Engineering**, ESIBA · Lomé 2022 – 2025
*Final thesis defense expected late 2026.*

**Web Development & APIs**, Udemy 2024

**Agile Methods**, Udemy 2024

**Git & CI/CD**, GitHub Actions 2023

## SELECTED PROJECTS

### LK Vault : SSH / SFTP / VNC Client — 2025 – Present

*LKFondation · Electron · React · TypeScript · Rust*

- Local-first desktop app: on-device encrypted vault (AES-256-GCM), multi-tab terminal, code editor built into SFTP, snippets broadcast to several servers and an AI copilot. Windows, macOS and Linux.
- https://lkvault.lkfondation.com/

### Loky : Education Statistics — 2025

*Electron · React · MUI · PostgreSQL · Prisma · Groq*

- Desktop app that makes education statistics readable without technical skills: dashboard, 71 standard indicators, data-quality audit, AI text-to-SQL assistant and Excel, PDF, CSV exports. Read-only.

### LK-FACTURE : Service Billing — 2024

*LKFondation · Next.js · Prisma · PostgreSQL*

- Billing for water and electricity services: meter readings, payment and overdue tracking, PDF receipts by email, mandatory two-factor authentication.

### KoriTech (Proxima) : HR SaaS — 2025

*LKFondation · Human Resources Management*

- HR management SaaS: designed the database architecture and core features.

### LK-IMMO : Real-Estate Platform — 2026

*React · Vite · TypeScript · Tailwind CSS*

- Rent or buy villas, apartments, rooms and land in Togo, with listings published by identified agents.
- https://lk-immo.vercel.app/

### LKM Player : Mobile Audio Player — 2025

*Flutter · Open Source · Android*

- 100% local player: library scan, playlists, synced .lrc lyrics, equalizer, listening stats.
- https://github.com/BENLK404/lkm-player

### PyDM : Download Manager — 2026

*Python · Qt 6 · yt-dlp · Open Source*

- IDM-style download manager for Linux: up to 32 connections per file, resume after failure, videos via yt-dlp, Firefox / Chrome extension.
- https://github.com/BENLK404/pydm

### Lumen : Video Player for Linux — 2026

*Rust · Qt 6 / QML · libmpv · Open Source*

- PotPlayer-inspired player: hardware decoding, resume playback, YouTube and IPTV, online subtitles, themes. Shipped as an AppImage.
- https://github.com/BENLK404/lumen

### TogoMarché : E-commerce Marketplace — 2025

*React · Cloudflare Workers · Edge*

- Catalog, cart and search, deployed at the edge on Cloudflare Workers for the Togolese market.
- https://e-commerce.kpedzibernard.workers.dev

### Portfolio & Online Resume — 2025

*React · Cloudflare Workers · Edge · Responsive*

- 2-page web resume, print styles, PDF version. Clean, readable design.
- https://portfolio.kpedzibernard.workers.dev
